

Research Scientist - Cancer Center

University of Illinois Cancer Center - Chicago, IL

Salary: The budgeted salary range for this position is \$90,000 to \$120,000. Final salary offered will be determined by a thorough assessment of available market data, internal salary equity, candidate experience and qualifications, and budget constraints. The University of Illinois Chicago offers a very competitive benefits portfolio. Click for a complete list of [Employee Benefits](#).

Research Scientist Cancer Center (Job ID #1032814)

The University of Illinois Cancer Center is a science-first research institution that gives patients with cancer equal access to world-class treatment. This position will provide key scientific leadership and systems support regarding cancer-focused grants on research translation, health services, and community engagement. This position will require the identification of funding mechanisms, development of competitive proposals in community engagement, research translation, and healthcare practice, and oversight of implementation for funded projects. This will entail working with teams of Cancer Center staff, students, Ph.D. level researchers, and other stakeholders to conceptualize and draft projects, including implementation and dissemination initiatives aligned with research. This position will also recruit, supervise, and/or train other research staff or students.
